PROFILE

- IT student at Sri Shakthi Institute of Engineering & Technology with expertise in Java and web development. Passionate about creating efficient, scalable software. Experienced in web and mobile apps. Proven teamwork and open-source contributions. Skilled in problem-solving, eager to learn more in cloud computing and machine learning.

PROJECTS

HEAL360

HealthCare At Your Fingertips

- Enhances healthcare quality and accessibility through a user-friendly platform for managing appointments and viewing electronic health records (EHRs).
- Supports telemedicine with features for remote consultations, including video calls, file sharing, and texting.
- Ensures data security with a secure central server and integrates AI-driven analytics for predictive health insights.

E-COURT

Development Of E-Portal For Facilitating Case Management Hearing Of Various Types Of Cases

- Streamlines case management, including registration, tracking, and secure access control.
- Integrates a virtual courtroom for remote hearings, featuring video conferencing and real-time scheduling.
- Ensures data security, privacy with jurisdiction-specific regulations.

SHE NURTURE

Empowering Women's Wellness and Safety Through Comprehensive Support

- Empowers women with personalized fitness plans, mental health resources, and safety features.
- Enhances safety through emergency assistance, self-defense tutorials, and access to local support services.
